This he did with entire success, transferring the person from natural to artificial sleep without arousing him. He used about three drachms of Squibb's chloroform, and occupied about seven minutes in the op-

> eration. The second case was a boy of 13, who had refused to take other for a minor operation, Dr. Quimby advised the mother to give the boy a light supper and put him to bed. She did so, and Dr. Quimby, calling when the boy was asleep, administered the chleroform and performed the operation without awakening the boy. The third case was a boy of 10 years, suffering from an abscess, and the same conrse was pursued with equal success.

Two important inferences may be drawn from these eases, Dr. Quimby said. Minor surgical operations may be done with perfect safety, and much more pleasantly than in the ordinary way; and, secondly, a person somewhat akilled in the use of chloreform may enter a sleeping apartment and administer chloroform with evil Intentions while a person is asleep. Hence the use of this drug in the hands of a criminal may become an effective instrnment in the accomplishment of his nefareous designs, -Medical Advance,

BPONGE UNDERCLOTHING.

Sponge underclothing is the ver atest, some German gonius having re cently invented and patented a line underwear manufactured from this po ous substance. It is claimed for it the it can be cleansed more easily the woolen goods, and, being more flexible Joes not chafe the skin so much. It a had conductor, and tends to keep tl temperature uniform. One who wea this underelothing is not liable to tak without cheeking it. After the miner and vegetable impurities in the sponge cave been sufficiently beaten by a hear nammer to admit of boing reacti washed out, the spouges are dried as atory which its editor had rejected at are then sewed together. The fabric is prepared without the use of poisonous dyes which, as incorporated in cloth underclothing, sometimes prove very deleterious to the system. Custer county, Mountains, is about

No Whiskey!

Brown's Iron Betters is one of the very few tonic medicines that are not composed mostly of alcohol or whiskey, thus becoming a fruitful source of intemperance by promoting a desire for rum.

Brown's Iron Betters is guaranteed to be a nonintoxicating stimulant, and it will, in nearly every case, take the place of all liquor, and at the same time absolutely kill the desire for whiskey and other intaxicating beverages.

Rev. G. W. RICE, editor of the American Christian Review, says of Brown's Iron
